

# AOYUE<sup>®</sup> 852

## SMD Rework Station

- Electrostatic discharge safe design with grounding measure.
- All digital display of set and actual temperature.
- Includes specially designed airflow gauge for precise adjustment of airflow.
- Closed loop temperature control that ensures constant temperature.
- Programmed with an auto-cool off process upon turning off the unit, to ensure safety and to prolong usage life of the heating element.
- Compatible with various type of air nozzles to perform various types of tasks. Please see page 37 for list of available air nozzles.

### Package Content:

Main Station with Hot Air Gun  
 Air Nozzles (1124, 1130, 1196, 1197)  
 Hot Air Gun Holder  
 G001 IC Popper  
 Power Cord

### Spare Parts List

Part No.	Description
10094	Hot air gun heating element
30104S	Plastic handle of hot air gun
S003	Hot air gun complete handle
20932	Hot air gun metal pipe
P002	Diaphragm pump

### SPECIFICATIONS

Power Input:	available in 110V / 220V
Power Consumption:	500W
Temperature Range:	100°C- 480°C
Heating Element:	Metal Heating Core
Pump/Motor Type:	Diaphragm Pump
Air Capacity:	23 l /min (max)
Station Dimensions:	188(w) x 127(h) x 244(d) mm
Weight:	3.8Kg
